

PLASMA IS LIGHT

1000 Watts of Plasma

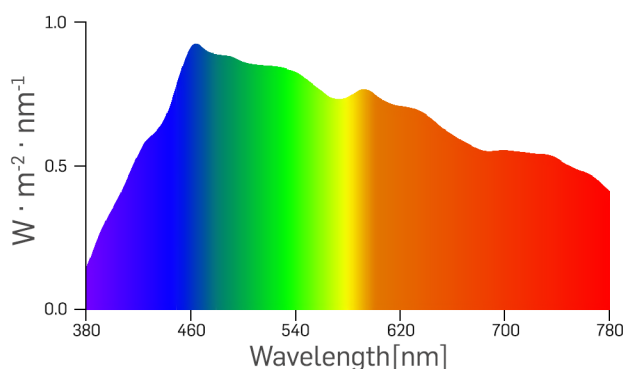

Hive Lighting introduces the brightest light you can plug into the wall! Twice as bright as an HMI and using only 9.5amps on 120V power Hive Lighting's new 1000 Watt Plasma bulb represents a quantum Leap forward in Plasma Lighting technology. Hive's new 1000W bulb is 5 times brighter than the current 250 Watt Plasma bulbs. It produces the equivalent output of a 2,500W HMI or 10,000W Tungsten Incandescent but costs almost 40% less to purchase and over 50% less to operate.

Hive's new bulb is not only have the highest output light you can plug into a wall, it is the highest quality artificial daylight ever produced! With a full spectrum 98 CRI, there is no other daylight on the market that can achieve this quality. Like all of Hive's plasma products it is 100% flicker free at any frame rate, is a single point source arc lamp, has an extremely long bulb life (50,000 hours) and can offer color temperature adjustment between 4,600° K and 6,500° K.

Spectrum at 5,600°K

- 1000 Watt Plasma Bulb (1,150 total system watts)
- 5X brighter than Hive's 250 Watt Plasma bulbs
- Equivalent to 2,500 watt HMI and 10,000 watt Tungsten
- 98 CRI and Full Spectrum
- 50,000 hour lifetime

- 100% flicker-free
- Single point source bulb
- Color Temperature Adjustment between 4,600°K and 6,500°K

BEE 1000 PLASMA FLOOD KIT

- 1000 Watt Plasma Bulb
- Head Unit
- 100V-120V or 200V-240V AC Ballast
- Header Cable
- Accessory Mounting Ring

WASP 1000 PLASMA PAR KIT

- 1000 Watt Plasma Bulb
- Head Unit
- 100V-120V or 200V-240V AC Ballast
- Header Cable
- 12 Degree Parabolic Reflector
- Accessory Mounting Ring
- 4 HDP Lens Set with Bag
- 5pc 13.5" Scrim Set with Bag
- 13.5" Barn Doors
